<Transversable>

for percussion quartet and interactive system

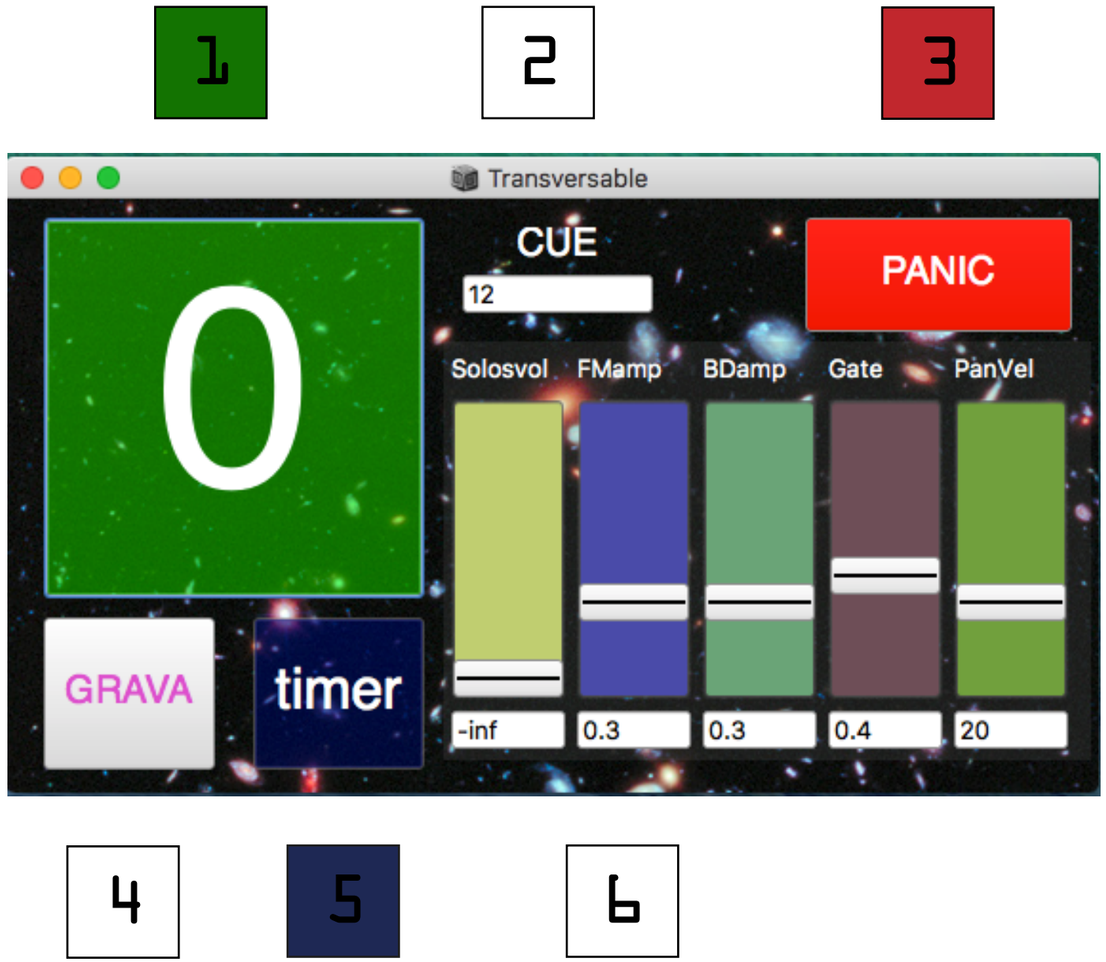
In the course of the piece small rhythmic and timbral modifications are explored and also how these can affect the final result of the section, the piece and even the future of itself. This is achieved through a chain of decisions that allow the five performers to move across the piece and cause a chain reaction, which often leads them to coexist with their past decisions.

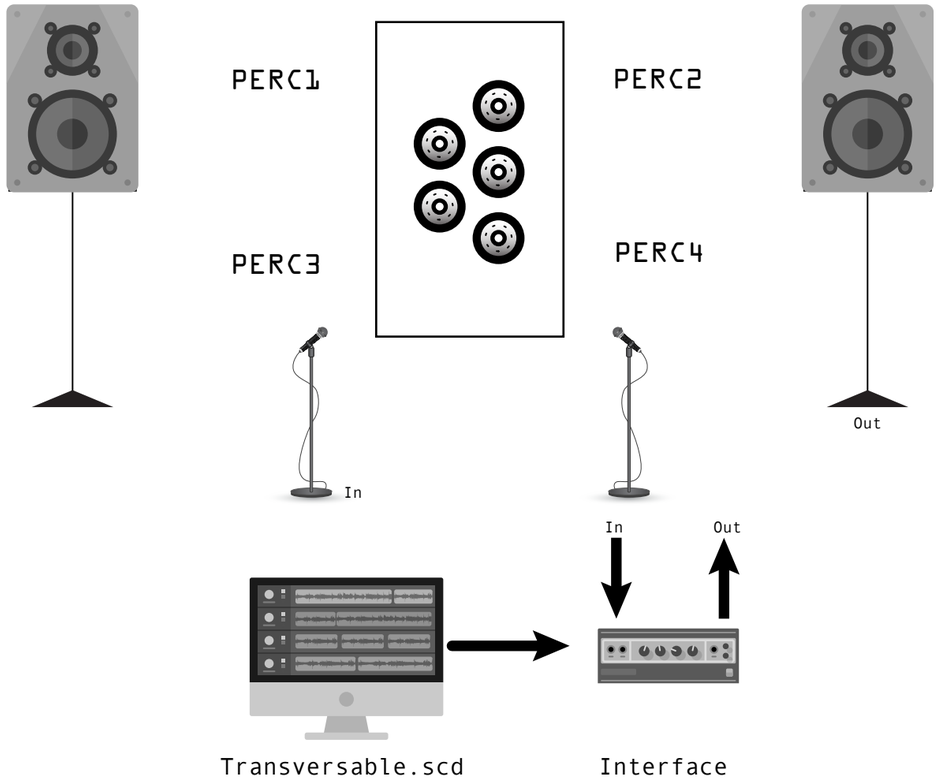
<Transversable>

software



1. Cue trigger
2. Manual cue setting
3. Panic button
4. Recorder
5. Time monitor
6. Amplitude controllers
7. Level of sensibility to sound (inputs).
8. Panning Velocity

<Distribution>



<General marks>

- (C) Tingsha cymbals
- (T) Triangle
- (TB) Copper tubes
- (M) Maracas

Brake drums

Thunder sheet and superball

Huesos de fraile

Let the superball bounce on the surface

Fast attacks

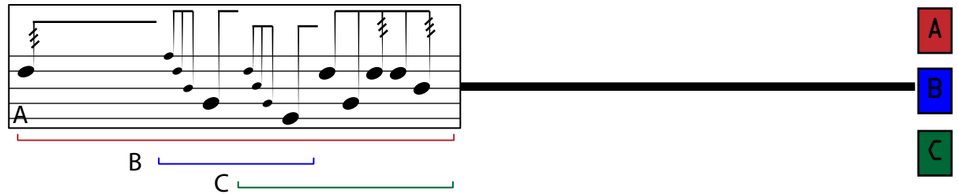
Gradually changing to next motif.

Keep playing the motif

Direction of the maraca's movement

Let ring and mute

Partial muting



Choose A, B or C and play it until the line ends, then play the motif with the letter chosen.

<Interactive system cues>

- 1 Interactive process
- 1 Audio signal processing
- 1 Recorder
- 1 Stop event
